

Connectors: X2Y Filter Solution

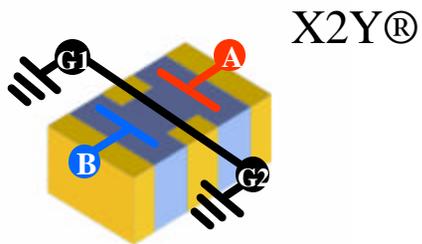

X2Y®

Filter Solution on Flex Circuit

X2Y® filtered d-sub

- Reduce cap usage by at least half, also saves board space.
- Replaces common mode inductors.
- Increases reliability (less parts).
- Lowers emissions, improves susceptibility.
- Provides ESD protection.
- Can retrofit an existing connector in systems.
- Other connectors in development, i.e., Automotive, telecom etc.
